The Westport River Watershed Alliance (WRWA) is a nonprofit environmental organization and advocacy group, formed in 1976 to protect and conserve the natural resources of the Westport River and its 100-square mile watershed located at the entrance to Buzzards Bay in southeastern Massachusetts.

The goals of WRWA are to:

- promote the environmental integrity of the watershed and its coastal environs.
- advocate the wise use and preservation of natural resources in the watershed for the aesthetic, recreational, and economic benefit of the citizens of the area.
- educate the general public about the interrelationship of our waters, soils, plants, animals, and people.

Our summer programs offer children the opportunity to learn science, make friendships and build self-confidence, all while having fun in a relaxed, safe environment.
